

AM Accelerator Event

Accelerate Business Innovation

Making *you* an Additive Innovator

Stratasys Additive Manufacturing (AM) Accelerators are designed to help kick-start your journey towards Additive Innovation.

During this interactive 2-day long workshop, you will learn how 3D printing is a powerful innovation tool to drive new value across your entire business; from how you create value, reach your customers, operate internally, meet market trends, fend off competition and much more.

You will leave this event with a new knowledge of AM technologies and their innovation potential as well as your own validated business case that demonstrates how AM can drive innovation within your own businesses and showcases your new skills as an AM innovator.

When | March 26-27 2019

Where | Stratasys Office Rheinmünster Germany

Facilitators | Stratasys Consulting team

Price | 949€ per person (**early bird offer** 749€ until Feb 15)
